WORK EXPERIENCE

University of Michigan School for Environment and Sustainability

Jan. 2025– Present

Research Assistant

Ann Arbor, MI

- Developed a geospatial-analytical framework using Python (Pandas, NumPy), GIS, and MiEJScreen to evaluate the intersection of energy transition projects and vulnerable populations across Wayne and Washtenaw counties.
- Integrated industry and regulatory trends and networked with community organizers to identify site-selection models by isolating key socioeconomic variables.
- Authored a 40-page technical report and a peer-reviewed academic paper selected to present findings and policy recommendations at AAG 2026, a national-level geography conference.

University of Michigan Center for Sustainable Systems

Oct. 2024 – Oct. 2025

Policy Analyst

Ann Arbor, MI

- Developed and executed an evaluation of 11+ years of historical beverage redemption data using Python to assess the efficacy of Michigan's circular economy governance.
- Interviewed 23 government and business stakeholders, integrating diverse perspectives to guide comprehensive program evaluation.
- Coordinated a statewide stakeholder workshop with 75+ participants for collaborative decision-making.
- Authored and designed a comprehensive technical report with policy recommendations for the MI Department of Environment, Great Lakes and Energy.

Center for Science and Environment

Aug. 2023 – July 2024

Climate Change Researcher

Remote

- Integrated quantitative modeling using Advanced Excel and Python with policy analysis to author 3 peer-reviewed reports and represented the think tank's data-driven insights at COP28 Dubai.
- Published 43 op-eds for news media and liaised with government and business stakeholders to disseminate research publications and build networks for future work.

Greenpeace

Aug. 2021 – July 2023

Research Consultant

Remote

- Led digital transformation efforts, increasing social media engagement by 17% annually and achieved a funneling rate of 6% from audience engagement to campaign endorsement.
- Managed cross-functional project lifecycles for 6 research grants, ensuring seamless coordination between technical analysts and communication teams.

Treeni Sustainability Solutions

Sep. 2020 – July 2021

Sustainability Consultant

Remote

- Led the end-to-end delivery of Treeni's SaaS platform for 11 global clients, providing quality assurance for analyses of clients' sustainability objectives and environmental risk.
- Delivered tailored training sessions for 7+ executives, including the development of C-suite presentations.
- Conducted comprehensive Scope 1-3 emissions inventories and Life-Cycle Assessments (LCA) using CDP, GRI, SBTi and other sector-relevant frameworks for environmental compliance and assessments.

EDUCATION

University of Michigan

May 2026

Master of Science, Sustainable Systems

Ann Arbor, MI

- **GPA: 3.7/4.0**; 2025 CJMC Fellowship Awardee, 2026 Glancy Climate Innovation Awardee

University of York | Master of Science, Environmental Management

Sep. 2020

University of Pune | Bachelor of Science, Biotechnology

April 2019

SKILLS & INTERESTS

- **Technologies:** GIS (ArcGIS Pro, QGIS); Python (Pandas, NumPy, Scikit-learn); R; SQL; STATA; Tableau; PowerBI; Energy Modeling (Energy Plus, OSEMOYS), Adobe InDesign
- **Skills:** Sustainability Reporting (GRI, SASB, TCFD, CDP, GHG Protocol), Life Cycle Assessment, Climate Risk
- **Interests:** Pottery; Swimming; Baking; Traveling
